

ACTIVATOR Portable Toilet Instructions

| Type | Portable Toilets | | RV Toilets | |
|-----------|---------------------|----------------------|----------------------|-------------------------|
| Tank Size | Small (15 - 30L) | Medium (30 - 50L) | Large (50 - 100L) | X-Large (100 - 250L) |
| Dosage | 100ml / 4-7 days | 150ml / 4-7 days | 200ml / 4-7 days | 250ml / 4-7 days |

GENERAL INSTRUCTIONS

- 1 Add recommended dose of EcoCare Activator to the flush tank. If unable to add to flush tank, dilute in 500 mL water and add to toilet
- 2 Repeat every time you empty the holding tank. Rinse tank after emptying
- 3 Use diluted EcoCare Activator to spray down bowl after each use

TIPS

- > Repeat every time you empty the holding tank
- > Rinse the tank after emptying
- > Repeat if odours reappear

PLEASE NOTE

There are many different styles of portable toilet systems. If the above guidelines do not appear to suit your situation please contact us on 1800 633 866 for an individual assessment of your situation – we're here to help.
